

# Seminars & Events - Autumn 2017

The Centre for Gender Research aims to be a Crossroad of knowledge for research and researchers across disciplines, and therefore invites all who are interested to its open events and activities. Among these are the *Thursday seminars* which are held between 13.15 and 15.00 at the Centre for Gender Research (Villavägen 6, Uppsala). The seminars bring together several different research areas; men/masculinities, queer theory, body/corporeality, and science are only some of the themes that reflect the breadth of research conducted at the Centre.

We also arrange popular scientific lunch lectures together with Folkuniversitetet and Uppsala City Theatre. The series of lectures are called *Genuslunch* and are held on Tuesdays at Uppsala City Theatre (Kungsgatan 53, Uppsala). We will not be hosting any lunches this semester but we look forward to welcoming you back in the spring.

More information about all events can be found on our website. We hope that you will find much of interest and that you will take the opportunity to participate in these exciting and fruitful events. Lectures will be held according to the language of each title, some in Swedish and some in English.

## Welcome!
