

UPPSALA  
UNIVERSITET

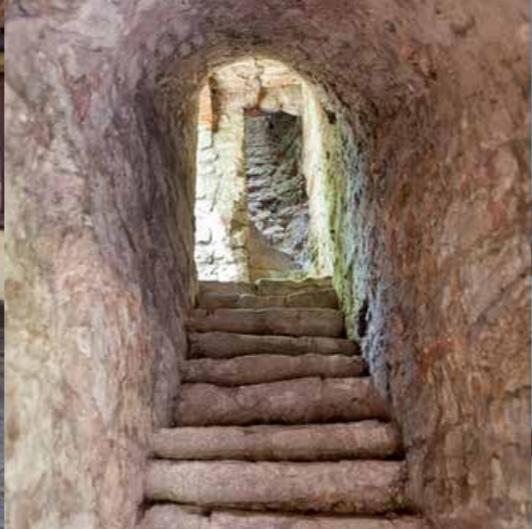

Uppsala universitet - Campus Gotland

In the middle of the Baltic Sea on the island of Gotland you will find Uppsala University's smallest campus. Welcome to Campus Gotland.

## A modern university...

Uppsala University is the oldest university in Scandinavia and regularly ranked among the leading educational institutions in the world. At Campus Gotland, world-leading research and education is carried out in an intimate and personal environment.

## ... in a medieval town

The campus is situated between the harbour and Almedalen, a park famous for political meetings every summer in July. It is directly adjacent to Visby's historical town centre with the medieval city wall that attracts close to a million tourists yearly.

"For a student, Visby is a dream. You are as close to the university, the student club, and cosy cafés as you are to beaches, pubs and your friends. If you long for the big city, a flight to Stockholm only takes 30 minutes."

LISA ENGLUND, STUDENT

”There is a special kind of fellowship on a small campus. At Campus Gotland Law students socialize with archaeologists and in the cafeteria teachers and students eat together.”

OLLE JANSSON, ADVISER TO THE VICE-CHANCELLOR FOR CAMPUS GOTLAND

## A place for development

Campus Gotland is a place for multidisciplinary and interdisciplinary projects and studies. It is easy for students, teachers and university staff to stay in touch with each other and their meetings give birth to opportunities. We have a tradition of working in this way and the small-scale environment makes collaboration easy.

Campus Gotland also serves as a hothouse for working methods and routines. What we develop here later benefits the whole university. We hold several internationally strong research- and educational settings. For example in archeology, conservation and wind power management. Thus, we make an active contribution to the work that the university does for a number of international contacts and collaboration partners. It was at Campus Gotland that the university's first international first cycle programme was developed for the bachelor's degree in Game Design.

### A place in your heart

Gotland's distinctive landscape, its flora and fauna and its exciting history makes the island linger in the heart of everyone who visits. The narrow streets and alleys and the city wall of Visby – buzzing in the summer and more quiet in the winter – move you back in time. Gotland is a place of contrast and unique experiences all year round.

”I happily take all the opportunities to go to Visby and work in this fantastic environment, close to the sea with professional colleagues and closeness in decision-making processes.”

OSKAR PETTERSSON, HEAD OF UNIT AT PLANNING DIVISION;  
THE VICE CHANCELLORS OFFICE,  
UPPSALA UNIVERSITY

At Uppsala University – Campus Gotland, research and education is carried on within the fields of technology, natural sciences, the humanities, social sciences and medicine. Of the university’s approximately 60 departments, a third carry out activities at Campus Gotland. We have around twenty degree programmes and around 100 courses. The number of campus students is around 1200 and approximately 6000 students take distance learning courses linked to Campus Gotland. About 200 people are permanently employed at Campus Gotland, and staff are also exchanged between Visby and Uppsala.
